

Staying Well have funding opportunities for a range of ideas and projects. This funding is to help both new community groups get started as well as helping existing groups develop and strengthen the brilliant things they are doing. All funding is approved by local community panels made up of residents, volunteers and professionals from a local area. Funds are divided by local area so we can look at local needs and assets. If you have a project that may benefit more than one area you can submit an application to multiple funds – get in touch to discuss this.

The main themes of the Community Fund are:

- addressing loneliness and isolation
- helping individuals and communities get moving more
- support existing and setting up new luncheon clubs

Below is further information about each piece of funding which will help you see if your project/group/idea is a good fit for the fund. However, please don't get bogged down in the blurb and get in touch if you would like to talk things through with one of the team
